## How the Guards Were Killed

By EDWARD C. TUCKER

I found this letter in a trunk in my garret, containing family papers as far back as 1801. It was written under date of 1807 from Henderson couneen years of age, to his mother living

Dear Mother-Since I wrote you we the Indians. One morning a man and said a party of redskins were coming up, burning houses by the way and murdering the settlers. We at once set to work to inclose the house I was having to plach myself to keep in a fort. Of course, having little time, we couldn't build much of a protection.

All we could do was to cut down the trees within rifle shot, take the trunks of the saplings and stand them up in a circle, burying one end in the ground. Inside we built a rude platform, on which a man could walk around the house and keep an eye out for trouble.

We got the thing furnished-such as it was-before we heard anything of the Indians. Then one night we heard shots to the south, lasting about half an hour, then saw a red glare. The just like a man about to shoot. Then Harbeson family were the only ones living in that direction, and we reckoned they had been attacked, all had was lying on my stomach with my rifle been killed and their house burned. In my hand. I knew I hadn't much Pretty soon we saw forms on horseback in the dark coming to us, and we all got ready to defend ourselves. They came galloping along straight for us. We knew Indians didn't come that way and held our fire. Then we heard a man's voice call out "Friends!" and the Harbesons came

We took them in, and they told us they had defended their home till they saw they would be overpowered, then ran out the back door and, hidden by trees, reached the barn and got away on the horses without the Indians knowing it. I was mighty glad to see Elizabeth, who fainted and fell in my arms as soon as she got inside our stockade.

We didn't see an Indian that night or next day, but I knew the redskins were all about us. They were watching us from ambush. I felt pretty sure they would not attack us openly, for that's not their way of fighting. True, we had only nine men and two boys, though the women were ready to do their part, but the red devils didn't know how many we had, and they don't like stockades anyway. On the second night after the Harbe-

sons came it was Jim Hawkins' turn to keep watch, while we all slept with our rifles ready beside us. He could see so far on all sides that an Indian couldn't shoot him without coming over an open space, for, as you know, the house is on the top of a hill. What were our surprise and horror in the morning to find Jim's dead body on the platform behind the stockade. He had been shot. No one was in sight. the only living thing we could see being a bear about a mile away walking slowly toward a clump of trees. He was just within range, but we didn't shoot him, all our powder and ball being kept for the Indians.

The next night was Thursday, and swered.

John Harbeson insisted on taking the watch. It was awful in the morning to see him lying dead, the same as Jim Hawkins. Two of our men had been killed, leaving only seven. If they killed a man every night they'd have us all in a week. What we couldn't understand was how the savage could get within range, for the moon was more than half full and every night was clear. A sentinel at the fort could see a long distance.

We were more terrified at this mode of warfare than any other the Indians could practice. Something must be ty. Ky., by my grandfather, then eight- done. I proposed as soon as it was dark to crawl out in the direction from which both men must have been shot and lie in the bushes to watch. So have had considerable trouble with about the time the others were going to sleep Sam Turner went on watch, named Boone came in from the south and I crawled out, keeping behind low bushes as far as I thought best and lay in a little hollow where the grass was long.

About 2 o'clock in the morning, when awake, I saw in the moonlight a bear leave the same wood I saw the one go into the morning Jim Hawkins was shot. He walked slowly about, nosing the ground as though scenting something, and I noticed he was all the time getting nearer the fort.

I kept an eye on the creature, but I could not exactly make out what he was doing. By and by he stopped and sat up on his haunches. Then he stood on his two hind legs, and I saw he was using his fore legs just as a man would use his arms. The first thing I knew the bear stood

the whole matter of the shooting our watchers popped into my head. I time to aim before the bear would get Turner, so I fired quick, and the NATION CALLED bear dropped. I concluded I'd killed

him, for I aimed for his head. I didn't dare to go to him for fear some Indian behind him would pick me off, so I crawled back into the fort, and as soon as it was day several of us went out together and found a dead Indian in a bear skin.

He was the only Indian we ever saw

## WONDERS OF BAALBEC.

A Building Problem That Has Puzzled Modern Engineers.

Baatbee, or Baalbek, is the name given a ruined city lying in ancient Coele, Syria, forty-five miles northwest of Damascus.

There is nothing particularly reday when Baalbec was first made the Mecca of the oriental traveler.

## TO MOURN DEATH OF ITS VICE-PRES.

(Continued from first page.)

ical battles shoulder to shoulder with and I reckon the rest went away, leav. men of his faith without compromising or flinching. Like every public man, he had critics some hittor; but he also had friends who were a match for his enemies. The events he helped to shape are so comparatively recent that history cannot assign him to his proper place until it also records the work of his contemporaries.

To the House of Representatives of the fiftieth Congress, he came in the winter of 1887, just passed his twenty-seventh birthday, with the energy and optimism of youth, college bred from markable about a ruined city being the hall of Hamilton, which has given found in the locality mentioned, but to public life many other statesmen and by the ancient builders of this partie- of distinction. He had been elected mayular city is something that has puz- or of Utica two years before. Like many zled the modern engineers since the others who came to lead in the national legislature, he brought with him an education in law. He was well born and well bred. His father, Richard U There are immense stones on every Sherman, was an editor and public fig-

Two sessions of Congress found Sherble blocks-said to be the largest ever man defeated and out of office, but not used in the construction of a building for long. Henry W. Bentley of Madison -are in a wall back of the temple of county beat him by less than a thousand votes in the race for the fifty-secpractice, and returned to the fifty-third Congress with a signal victory. He remained in the House without defeat to ful thing in connection with them is the sixtieth Congress, when he was the fact they are at a place in the wall nominated and elected vice-president on the ticket with Mr. Taft.

His first years in the House brought im into close association with leaders. Joseph W. Bailey, later a senator; Breekenridge, Bryan, Bourke Cockran, Crisp, Dalzell, Dingley, Dolliver, Henderson, Payne, Paynter, Raynor, Reed, Wadsworth, "Fighting Joe" Wheeler and a score of others whose names became ousehold words in discussion of the tariff and other national policies were his for two weeks at a time. When he dis-fellows. The Senate held such men as appeared, seeking rest and health in Aldrich, Allis, Cockrell, Daniel, Frye. Gorman, Hoar, Hill, Teller, Vest and Wolcott. All were not Reuphlicans, but all were "Jim" Sherman's friends, and n such an environment he worked to a If you care for heavy hair, that glis- | ish, loosen and die; then the hair falls high place in the councils and finally was number one of the Big Five in the

galleries to applause by a debate from cago and that after a fuse on each pack-the floor, or changed any votes by elo-age was lighted both bundles were age was lighted both bundles were quence. But the statutes bear marks of his work in committee and caucus, and the results of his labors on the rules committee, the interstate commerce committee and other branches of the machinery of the house where the real legislating is done, while speeches prevail upon the floor.

It is not to be said he was no campaigner. In New York state politics, he was a leading figure. He was known in other states. His appearances in campaigns, state and national, were not infrequent. He was at one time chair-New York state Republican conventions, and a figure at all national gatherings of the party.

Sherman went to preside over the could have put the explosives at that senate just about at a time when what Senate just about at a time when what popularly is known as senatorial dignity was beginning to feel its first break. In the chair, Sherman was dignity itself, fair in his rulings, his colleagues said, the size of the blocks of stone used public figures, none without some mark | quiet, firm, sure and seldom reversed an appeal. But dignity so far as the traditional senatorial frock coat and silk the International Association of Bridge hat were concerned generally was absent. He regarded his time presiding over the Senate as a day's business, to be attended to as if he were sitting many boxes moved out of the office to a his bank in Utica or at the directors' table of one of the many enterprises in which he had found a fortune and laid the foundations of another for his sons, He usually appeared in a business suit, McNamara. on a hot day he came in flannels, on a very hot day a palm leaf fan disond Congress. In the interim, Sherman placed the gavel and perhaps a glass went back to Utica, built up his law of lemonade topped off the book of rules. Other senators, reluctant, perhaps, to transgress staid custom, fell in with his ideas, and nowadays on a blistering Washington summer day the Senate chamber looks quite like a business body.

present during the closing days of the last session, and the Senate, without a president pro tem. by the death of Frye, and unable to agree upon a successor, got along by temporary ments, placing some senator in the chair for two weeks at a time. When he disvain, Sherman was genuinely missed

darkness. Investigating, he said, found the fire was reaching fourteen sticks of dynamite wrapped together in a Chicago newspaper. Unable to extinguish the fire, he threw the dynamite into an inlet of the lake. Near a paman of the Republican congressional trol box, where he was going to send in committee. He always was active in the package of fourteen sticks of dynamite, the fuse of which had been lighted, but had gone out. The witness said no one

The illness which proved fatal was little known of in Washington until the last few months. Mr. Sherman was not

### FRENCH ZOUAVES.

Fighters Won Their Greatest Fame In the Crimea.

One of the most interesting class of soldiers of modern times has been the French corps called the zouaves. This body of daring and picturesquely attired fighters reached the heights of its reputation during the Crimean war.

Dynamite Then Hurled from Car, Gov-The zouave corps at that time was was, however, quite international, since many daring young foreigners had joined it, and it was known to include in its ranks men from Oxford. Gottingen and other universities. It is probable that a majority of its members were in it more for love of fighting

thrown out of the train window into than for any love of country. some steel construction work at Indiana It is not strange, therefore, that its Harbor, Ind., was given at the "dynamite fame as a fighting body should have conspiracy" trial Tuesday. John F. spread throughout the world. When Byrne, a night watchman, testified that at 1 a. m. on May 24, 1909, he noticed our war between the states broke out the sputter of a fuse burning in the several corps of zounves, wearing the glittering oriental uniforms of the French corps or a modification of them, were formed on both sides. On the Union side the best known was that corps commanded by Elmer Ellsworth, a young officer from New York and the first killed on the Union side. In the Confederacy the most famous corps of zonaves was that called the "Louislana Tigers."

While in American military life the zouave uniform has practically disappeared, in France the zouave name and uniform still survive.-Harper's Weekly.

The Queer Chameleon, There is nothing in the world will induce a chameleon to take even the slightest apparent interest in its sur roundings unless it be the sight of what it considers a toothsome insect. The chameleon's method of taking its prey is very curious, being effected by shooting out an enormously long. wormlike tongue, the end of which is clubbed and covered with a viscid secretion, to which the insects stick and are thus drawn into its mouth. The actual projection of the tongue is made with marvelous rapidity. The eyes of the chameleon are very curious. They are very large, but, with the exception of a small opening in the center, are covered with skin. They are also entirely independent of each other, with the result that occasionally the creature is looking forward over its nose with one eye, while with the other it is intently watching something directly

Raiment of the Coster. The English costermonger must be fearfully and wonderfully clothed. judging from the following coster tailor's advertisement in a London

"A slap-up togs and kicksies builder. with upper Benjamins snipped on a downy plan, with moleskins of hankypanky design, with a double fakement down the sides and artful buttons at bottom, with kicksies cut pegtop, half tight, or to drop loose over the trotters, with fancy vests made to flash the dickey, or to fit tight round the never grow hald, because the hair root is supplied with plenty of nature's own

Domestic Joys

"Rosa, my mother-in-law is coming for a long visit tomorrow. Here is a list of her favorite dishes."

"Yes, sir." "Well, the first time you give us one of these you'll get a week's notice."-Fliegende Blatter.

Try This Home-Made Cough Remedy

Costs Little, But Does the Work Quickly, or Money Refunded.

Mix one pint of granulated sugar with ½ pint of warm water, and stir for 2 minutes. Put 2½ ounces of Pinex (fifty cents' worth) in a pint bottle; then add the Sugar Syrup. Take a teaspoonful every one, two or three hours.

You will find that this simple remedy takes hold of a cough more quickly than anything else you ever used. Usu-

edy takes hold of a cough more quickly than anything else you ever used. Usually ends a deep seated cough inside of 24 hours. Splendid, too, for whooping cough, croup, chest pains, bronchitis and other throat troubles. It stimulates the appetite and is slightly laxative, which helps end a cough.

This recipe makes more and better cough syrup than you could buy ready made for \$2.50. It keeps perfectly and tastes pleasantly.

tastes pleasantly.

Pinex is the most valuable concentrated compound of Norway white pine extract, and is rich in guaiacol and all the natural pine elements which are so healing to the membranes. Other preparations will not work in this formula.

#### KEPT AN EYE ON THE HOUSE.

A Neighborly Act That Resulted In a Comedy of Errors.

A gentleman and his wife occupying a villa in a London suburb asked a neighbor to "keep an eye on the place" while they were away on their annual holiday. The neighbor consented will go far to uncover an amazing story of graft and peculation by the most trusted body of enlisted men in the service. The investigation still in progsaw the light extinguished.

Accompanied by a policeman, the neighbor made a forcible entrance through the scullery window, and quietly the two men made their way to the bedroom. The light of the constable's bullseye disclosed the head of a man It is still believed officially that there in bed, and the policeman promptly drew his truncheon.

As promptly the occupant of the bed sprang out, and a desperate struggle began. Simultaneously a lady dashed across the room shricking, threw open the window and at considerable peril clambered out. A second constable, passing at the moment, concluded that the lady was bent on suicide and, entering the front garden, held himself in readiness to catch the woman, who appeared to be about to fling herself to the ground

The neighbor, however, dragged the lady back into the room, and then the truth began to assert itself. The captured invader of the empty house and the escaping lady were the occupant and his wife, who had suddenly changed their holiday arrangements without informing their too vigilant neighbor .-London Globe.

An English Billion.

in England a pillion is a million times a million. This is quickly written and quicker still pronounced, but no man is able to count it. You will count 160 or 170 a minute, but let us suppose that you go up as high as 200 a minute, hour after hour. At that rate you would count 12,000 an hour, 288,000 a day or 105,120,000 in a year, Let us suppose now that Adam, at the beginning of his existence, had begun to count, had continued to do so and was counting still. Had such a thing been possible he would not yet have finished the task of counting a billion. To count a billion would require a person to count 200 a minute for a period of 9.512 years 542 days 5 hours 20 minutes, provided that he should count continuously. But suppose we allow the counter twelve hours daily for rest, enting and sleeping. Then be would need 18,025 years 219 days 10 hours 45 minutes in which to complete the tusk.

## SICK DAUGHTER NOW WELL

Mrs. C. Cole Tells How Her Daughter Was Restored to Health by Lydia E. Pinkham's Compound.

Fitchville, Ohio. - "I take great pleasure in writing to thank you for what your medicine has done for my daughter.

"Before taking your medicine she was all run down, suffered from pains in her side, could not walk but a short distance at a time, and had severe pains in head and limbs. She came very near having nervous prostra-
